

Technical Advisory Committee Meeting

October 26, 2021

Agenda

1. INTRODUCTIONS
2. STATE OF EMERGENCY TELECONFERENCE FINDINGS
3. PUBLIC COMMENT PERIOD
4. MSGSA ROLE IN COUNTY WELL PERMITTING
5. COMMITTEE RECOMMENDATIONS TO GSA BOARD
6. NEXT MEETING
7. ADJOURNMENT

State of Emergency Teleconference Findings

Action Item: The Technical Advisory Committee will consider the circumstances of the State of Emergency and determine whether to make the following findings:

1. The State of Emergency continues to directly impact the ability of the members to meet safely in person and
2. State or Local Officials continue to impose or recommend measures to promote social distancing.

MSGSA Role in County Well Permitting

Well Permitting Policy Considerations

- NEW WELLS: there are three potential approaches:
 - Continue existing County policy – no new wells allowed
 - Temporarily continue existing County policy until other GSP implementation factors (allocation and CEQA issues) are resolved
 - Allow new wells, but with limits on per-acre allocation. This would require that an allocation be established now, and complicated CEQA issues be addressed.
- REPLACEMENT WELLS: there are two potential approaches
 - Continue existing County policy
 - Modify County policy to:
 - Address concerns of pumping within areas where subsidence equals or exceeds GSP objectives so as to condition the replacement to limit pumping above/below the Corcoran Clay
 - Limit extraction with a new basis

TAC Recommendations to GSA Board

Well Permitting Policy Considerations
